Seeds of

Part I Fruit Stocks—Nut Trees
Economic Plants

Part II Conifers

Part III Deciduous Trees and Shrubs

Part IV Hardy Perennials

1940 - 1941

F. W. SCHUMACHER

Horticulturist

JAMAICA PLAIN - BOSTON, MASS.

TERMS

Deliveries are subject to yield of crops and safe arrival of our consignments and prices subject to change.

While we endeavor to carry ample stock, it is nevertheless impossible to have all seeds listed available at all times. Certain items cannot be stored successfully and are available in season only. Please bear this in mind when you place your order.

All seeds and plants are sold without warranty, expressed or implied as to description and productiveness. Seeds should be carefully inspected upon arrival and claims for conditions made at once. We cannot consider claims after seeds have been stored or planted.

All shipments travel at buyer's risk and claims for damages in transit must be taken up with the transportation companies.

Remittances made should include a fair amount for packing and postage, if shipment by mail is requested. Bags are being charged at cost price.

PACKETS—We shall be glad to supply packets of all items listed, as far as possible, and will charge 15c per packet unless listed otherwise.

TERMS—5% Discount for cash with order; for customers of approved credit, 10 days 2%; 30 days net.

SEND IN YOUR ORDER EARLY

Due to the war, European items offered are expected to be taken up quickly. Benefit of lower seasonable prices will be extended whenever it is possible to do so. Your inquiries are appreciated.

I

SEEDS OF FRUIT STOCKS, NUT TREES, ECONOMIC PLANTS

(Quantity prices upon request)

	¼ lb.	1 lb.	10 lbs.
APPLE , The wood of the Woodapple (<i>Malus sylvestris</i>) being of ironlike hardness makes prohibitive its use as stock for domestic apple varieties. The French Cider Crab , a hybrid race between the Woodapple and our Table-Apple (<i>Malus communis</i> or <i>pumila</i>) combines the ruggedness of the former with the adaptability of the latter producing a wood which offers little resistance to the knife.			
French Cider Crab , the strain preferred for Apple stock, supply uncertain.			
Domestic , seed from cultivated varieties.....	0.35	1.00	9.00
Paradise , Dwarfing stock.....	.70, ¼ oz.;	\$2.50 oz.	
APRICOT , Common (<i>armeniaca</i>).....	.25	.75	6.50
hardy Mandshurian (<i>mandshurica</i>).....	.45	1.50	12.00
CHERRY , Mahaleb30	1.35	12.50
Mazzard , domestic.....	.20	.65	6.25
Mazzard (<i>sylvestris</i>) the gum flux resistant silver bark strain.....	.50	1.60	
PEACH , Chinese , wild (<i>Amygdalus davidiana</i>) becoming recognized as valuable understock for Peach.			
Seed from Japan30	1.00	9.00
Common , Domestic, small naturals.....		.15	1.25
PEACH , New Nematode resistant strains			
Shalil (U. S. D. A. introduction from India—S. P. I. 63850)			
Fruited in isolation.....	100 seeds,	\$17.50	
Not fruited in isolation.....	100 seeds,	\$12.50	
Bokhara , fruited in isolation.....	100 seeds,	\$17.50	
Yunnan , S. P. I. 55885 and 55885 from Yunnan Province, China. The small seeded No. 55885 has proved the most valuable of the Nematode resistant strains under California conditions. Seeds from isolated trees.....	100 seeds,	\$20.00	
PEAR (<i>communis</i>) French seed.....	.95	3.25	
Chinese Callery (<i>calleriana</i>).....	1.35	4.50	40.00
Late Japanese (<i>serotina</i>).....	.60	2.00	18.00
Ussurian (<i>ussuriensis</i>).....	.90	3.00	27.50
PLUM , American (<i>americana</i>).....	.15	.80	7.50
Damas (<i>domestica</i> var.).....	.30	1.00	8.15
Damson60	2.00	
French (<i>domestica</i> var.) Reine Claude , most delicious table Plum.....	.25	.75	6.00
German Prune (<i>domestica</i> var.).....	.25	.75	6.00
Mirabelle (<i>domestica</i> var.) small ball shaped yellow fruited Plum, delicious cannery variety.....	.25	.75	6.00
Myrobolan (<i>cerasifera</i>).....	.25	.75	6.50
St. Julien (<i>domestica</i> var.).....	.20	.75	6.50
QUINCE , Common (<i>oblonga</i>).....	.80	2.75	25.00
CHESTNUT , American (<i>dentata</i>).....	.50	1.50	
Chinese Blight-resistant (<i>mollissima</i>).....	.45	1.50	
Corean (<i>pubinervis</i>).....	.35	1.50	
European35	1.00	
Japanese45	1.25	
Japanese , large fruited Tamba35	1.50	
FILBERT , American25	.70	
Colurna , Tree Hazel.....	.60	2.00	
European25	.65	
European , large fruited (<i>maxima</i>).....	.35	1.00	
Filbert Hybrids , from named varieties.....	.35	1.00	
Purple-Leaf Filbert50	1.25	
Winkler Nut , a large fruited native Hybrid, reliably hardy North,			
	100 nuts,	\$2.00	

	¼ lb.	1 lb.	10 lbs.
HICKORY, Bitternut (<i>cordiformis</i>).....		.25	
Mockernut (<i>alba</i>).....		.25	
Pignut (<i>glabra</i>).....		.25	
Shagbark (<i>ovata</i>).....		.20	
Shellbark (Kingnut) <i>laciniosa</i>20	
PECAN, Large fruited, Paper Shell35	
Naturals, for stock.....		.30	
Naturals, hardy Northern, from Indiana.....		.40	
WALNUT, Black Walnut18	
Black Walnut, New England or Prairie States collected.....		.30	
Black Walnut, nuts of cultivated varieties having large kernels:			
Ohio			
Ten Eyck			
Thomas			
Stabler			
All are.....	.35	1.00	
Price per bushel upon request.			
Butternut20	
Butternuts, New England collected.....		.30	
Californian Black Walnut25	
English (Persian).....		.45	
English, Chinese variety.....		.65	
Japanese (<i>sieboldiana</i>), imported.....	.35	1.00	
Japanese (<i>sieboldiana</i>), domestic.....	.50	1.50	
Japanese (Heart Nut— <i>sieboldiana cordiformis</i>), imported.....	.35	1.00	
Japanese (Heart Nut— <i>sieboldiana cordiformis</i>), domestic.....	.50	1.50	
Manchurian, Coast strain.....	.45	1.25	
Manchurian, Interior Strain, hardiest of all Walnuts.....	.50	1.50	
Hybrid Nut (Butternut x Japanese)..... 10 seeds, .35; 100 seeds, 2.50			
Hybrid Nut (Japanese Heart Nut x Manchurian)			
10 seeds, .35; 100 seeds, 2.50			
ASPARAGUS, Paradise , a new asparagus, highly resistant to rust, coming into production one year earlier than any other variety, crops yielding above average green tender stems of fine flavor, mild in taste.....		2.25	21.00
Martha Washington..... 20 oz.	.45	1.50	12.50
GINSENG (<i>Panax quinquefolium</i>),			
100 seeds, .50; 500 seeds, 2.25; 1,000 seeds, 4.00			
GOLDENSEAL (<i>Hydrastis canadensis</i>),			
100 seeds, .35; 500 seeds, 1.75; 1,000 seeds, 4.00			

II CONIFERS

A—Conifers of Merit (Insufficiently known to the trade)

Packets—Packets of all items listed can be supplied at 15c. each unless priced otherwise.

	oz.	¼ lb.	lb.
PICEA hursti , new and rare American Spruce from N. W. Ontario and British Columbia apparently intermediate between <i>Picea canadensis</i> and <i>Picea pungens</i> . In habit similar to the former and often found in specimens equaling in color a good silver foliated Blue Spruce. .30 pkt.; .75 ¼ oz.		2.50	
PSEUDOTSUGA douglasi caesia , a strain from the Interior Northwest, intermediate between <i>glauca</i> and <i>viridis</i> . Originating in typical bad land country with severe winters and extreme heat and drought in summer, this variety is as hardy as <i>glauca</i> . It is much faster growing, however, and has not the tendency to lose its lower branches at an early age. Foliage is of pleasant bluish-green color. A good forest tree to plant where the green form is not hardy and a fine ornamental in place of <i>glauca</i>60	1.05	5.00
TSUGA caroliniana , Carolina Hemlock, the handsomest American Hemlock of dense bushy habit, hardy as far North as this and farther north if planted in wind-shelter.....	.70	1.75	6.00

B—General Listing of Conifers

	oz.	¼ lb.	lb.
ABIES amabilis35	.85	3.00
<i>arizonica</i>70	1.75	6.00
<i>balsamea</i>15	.50	1.75
<i>cephalonica</i>35	.80	2.75
<i>cilicica</i>30	.65	3.00
<i>concolor</i> , Colorado15	.40	1.50
<i>concolor lowiana</i>25	.50	1.75
<i>firma</i>20	.40	1.50
<i>fraseri</i>45	1.20	4.00
<i>grandis</i>30	.75	2.50
<i>holophylla</i>15	.60	2.00
<i>homolepis</i> (<i>brachyphylla</i>)30	.65	2.25
<i>lasiocarpa</i>35	.75	2.50
<i>magnifica</i>35	.75	2.50
<i>magnifica shastensis</i>35	.75	2.50
<i>mariesi</i>35	.75	2.50
<i>nobilis</i>40	.90	3.00

<i>pinsapo</i>35	.75	2.50
<i>sachalinensis</i>45	1.00	3.50
<i>spectabilis</i> (<i>webbiana</i>) Himalayan Silver Fir55	1.65	5.00
<i>veitchi</i>30	.65	2.25
<i>venusta</i>65	1.50	5.00
BIOTA , see <i>Thuja</i>			
CEDRUS , delivery of <i>Cedrus</i> items uncertain, depending upon developments in Europe.			
<i>atlantica</i>35	.75	2.50
<i>atlantica argentea</i> (<i>glauca</i>)45	1.00	3.50
<i>deodara</i>35	.75	2.50
<i>libani</i>35	.75	2.50
CEPHALOTAXUS drupacea20	.45	1.25
<i>fortunei</i>25	.60	2.00
<i>harringtonia</i>20	.45	1.60
CHAMAECYPARIS lawsoniana25	.60	2.00
<i>lawsoniana</i> , seed from Scandinavia, a hardy strain30	.75	2.50
<i>lawsoniana argentea</i>40	.90	3.25
<i>lawsoniana pendula glauca</i>45	1.25	3.75
<i>lawsoniana pyramidalis</i>35	.80	2.75
<i>nootkatensis</i>75	2.20	6.75
<i>obtusa</i>15	.40	1.50
<i>pisifera</i> (<i>retinispora</i>)35	.75	2.50
CRYPTOMERIA japonica , seed from Japan15	.40	1.50
<i>japonica araucarioides</i>40	1.00	3.50
<i>japonica elegans</i>40	1.00	3.50
<i>japonica lobbi</i>40	1.00	3.50
CUNNINGHAMIA lanceolata (<i>sinensis</i>)45	1.00	3.50
CUPRESSUS arizonica40	.90	3.00
<i>forbesi</i> , a rare Californian species, for its disease resistance preferred to <i>Cupressus macrocarpa</i>	25, ¼ oz., .75		
<i>funbris</i>35	.85	2.80
<i>goiveniana</i>40	1.10	3.75
<i>lusitanica</i>35	.80	3.00
<i>macnabiana</i>40	1.10	3.75
<i>macrocarpa</i>30	.70	2.35
<i>macrocarpa</i> , seed from garden specimens35	.85	3.00
<i>sempervirens horizontalis</i>20	.40	1.50
<i>sempervirens pyramidalis</i> (<i>stricta</i>)20	.40	1.50
<i>torulosa</i>35	.75	2.50
GINKGO biloba , domestic15	.20	.50

	oz.	¼ lb.	lb.
JUNIPERUS chinensis , clean.....	.35	.75	2.75
communis , domestic.....	.20	.35	1.25
communis canadensis15	.40	1.50
communis depressa (prostrata).....	.15	.40	1.45
communis montana (siberica) seed from Montana.....	.15	.40	1.45
drupacea15	.40	1.50
formosana , Chinese Weeping Juniper, graceful new Juniper said to be hardy North..... 35 pkt.			
horizontalis , a fine hardy Juniper from Montana.....	.25	.65	2.25
japonica55	1.25	4.50
monosperma15	.40	1.50
procumbens , clean.....	.45	1.00	2.50
rigida50	1.25	4.25
sabina25	.50	1.75
scopulorum , seed from Colorado.....	.20	.35	1.35
seed from Montana or Dakota.....	.15	.40	1.50
scopulorum , columnar type, a natural form found in isolated stands in Montana.....	.25	.55	2.00
scopulorum , spreading type, a hardy prostrate form from Montana.....	.15	.40	1.25
scopulorum , seed from selected trees, blue or bright green.....	.25	.50	1.75
virginiana , seed from New England.....	.15	.40	1.50
seed from Tennessee.....	.15	.25	.95
seed from Nebraska, Platte River type.....	.15	.40	1.25
Platte River type, clean.....	.30	.65	2.25
LARIX europaea , 1000-2000 ft.....	.35	.80	3.00
europaea , large grained seed from Western High Alps, 5000-6000 ft., leaf- shedding disease resistant.....	.60	1.50	5.00
laricina (americana).....	.95	2.35	8.00
leptolepis75	1.75	6.00
occidentalis45	1.10	3.75
LIBOCEDRUS decurrens25	.60	1.75
PICEA ajanensis , see jezoensis.			
breweriana25, pkt.; .50, ¼ oz.	1.50	4.50	
canadensis (alba-glauca)—One pound of WHITE SPRUCE seed sown broadcast will plant about 25 yds. of 4 ft. wide bed. seed from Northern New England or Canada.....	.40	.90	3.00
canadensis albertiana , Black Hills Spruce.....	.75	1.75	6.00
engelmanni40	.90	3.00
excelsa —One pound of NORWAY SPRUCE seed sown broadcast will plant about 15 yds. of 4 ft. wide bed. seed from Central Europe.....	.25	.55	2.00
seed from North Central Europe—supplies uncertain.....	.30	.75	2.50
glehni55	1.50	
hursti (described ahead)..... .25, pkt.; .75, ¼ oz.	2.50		
jezoensis45	1.00	3.50
jezoensis hondoensis30	.90	3.00

III

DECIDUOUS TREES AND SHRUBS

A—Trees and Shrubs of Merit (Insufficiently known to the trade)

Packets—Packets of all items listed can be supplied at 15c. each, unless priced otherwise.

	pkt.	⅓ oz.	¼ oz.	oz.	¼ lb.	lb.
ALNUS maritima , native, tall, ornamental shrub, attractive in autumn with dark green foliage and yellow pendulous catkins.....				.35	.75	2.50
AMELANCHIER canadensis , the true Downy Shadblow (not the usual mixture of various species), snow-white flowers before leaves. Habit erect, a rather stout shrub or small tree, the true seed is scarce, dry berries.....				.50	1.25	4.50

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
AMELANCHIER (continued)						
canadensis, clean				1.35	3.50	12.00
grandiflora. Apple Shadblow, said to be a natural hybrid between canadensis and laevis. In habit much like laevis, but larger in all parts, buds often purplish pink, tinged pink when open (var. rubescens). With the large berries borne in clusters, plants have the appearance of a cherry tree laden with fruit. Due to its profuseness of bloom and fruiting this may easily be classed, when better known, as the most valuable of our Eastern Shadblows				.45	1.25	4.00
laevis, Allegheny Shadblow, Northern strain, the handsomest Amelanchier in flower with the young purplish foliage and drooping flower racemes expanding at same time. Slender shrub usually not attaining size of canadensis or grandiflora. New England seed				.40	1.10	3.50
oblongifolia (botryapium or obovata), Thicket Shadblow. For landscape planting this Amelanchier has its special feature. Like no other of the group it makes a small, many branched shrub, while young, suitable for formal planting or as cover shrub in borders and a cover and food plant in wild-life reservations. The first Amelanchier to bloom and fruit (Juneberry) and attractive by the silvery color of its unfolding foliage. Seed is hard to collect and not available every season..				.55	1.35	5.00
stolonifera hybrid, the botanical status of this does not seem to be properly established as yet. Plants are to breast high, in foliage, bloom and fruiting habit much like grandiflora and laevis. Berries are the largest of all our Eastern Amelanchier, remarkably tender skinned, good to eat and for preserves				.15	.45	1.25
AMPELOPSIS henryana, Silvervein Creeper, handsome creeper from China with purplish foliage and white veins				.20	.55	1.70 6.00
ARCTOSTAPHYLOS uva-ursi, Bearberry, the very best ground cover plant for light sandy soils, dune-lands, rocky slopes, an excellent ornamental with its shiny foliage. New England seed				.20	.75	1.75
AZALEA altaclarensis, Altaclare Azalea, said to be a hybrid between Azalea mollis and our native viscosa, remarkable for its deep yellow flowers	.25	.75	2.00	6.50		
CELASTRUS angulata latifolia, rapidly growing new species from China, with large leaves to 6 inches long		.20	.30	.90		
CLADRASTIS (Virgilia) lutea (tinctoria) Yellow Wood, this fine native tree should be planted more frequently, hardy here it grows to 50 feet high, has white flowers in long clusters and attractive foliage turning yellow in the fall				.30	.85	3.00
COTONEASTER adpressa, Creeping Cotoneaster, prostrate more adapted to small rockeries than horizontalis and with larger berries, hardy in New England				.25	.60	1.75 6.00
foveolata, little known Cotoneaster of stout, erect habit with large distinctive foliage. A fine ornamental, hardy in New England, easily the best of the black fruited varieties				.20	.50	1.50
horizontalis perpusilla, the best of the horizontalis varieties (in our opinion), growing less rampant and more prostrate than horizontalis	.20		.35	1.00		

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
COTONEASTER (continued)						
wilsoni (<i>horizontalis wilsoni</i>) Wilson Cotoneaster, the Japanese counterpart of <i>horizontalis</i> , reliably hardy North, growing more densely and compact than <i>horizontalis</i>25	.60	1.75 6.00
CRATAEGUS crusgalli , Cockspur Hawthorn. We offer this true to name, seed collected from specimen plants bristling with thorns.						
Fresh fruit.....	\$2.50,	10 lbs.;	\$19.50,			100 lbs. .30
Dry berries.....					.25	.90
Clean seed.....				.25	.60	2.00
mollis , Downy Hawthorn, a vigorously growing native Hawthorn with large impressive foliage, white flowers with red disk, large scarlet fruit..						
Dry berries.....					.25	.55
Clean seed.....				.15	.45	1.25
nitida , Glossy Hawthorn—Native, conspicuous by its glossy foliage and heavy crops of brilliant orange scarlet berries retained well into Winter.						
Dry berries.....					.25	.75
Clean seed.....				.35	1.00	3.00
prunifolia , Plumleaf Hawthorn—Native, with clusters of red fruit in great profusion, rivaling <i>crusgalli</i> as ornamental.						
Dry berries.....					.25	.75
Clean seed.....				.25	.65	2.25
punctata , Dotted Hawthorn—Native. As a small shade tree with spreading branches forming an umbrella-like head it is much used for planting in parks and public grounds. Has distinctive foliage quite different from other Hawthorns and dull red berries.						
Fruit.....	10 lbs.,	\$3.00				.35
Dry berries.....					.25	.75
Clean seed.....				.20	.45	1.50
CYTISUS carlesi , a rock garden jewel blooming in July, it makes a graceful dwarf shrub less than 3 ft. high.....						
ratisbonensis . Spring Broom, the first <i>Cytisus</i> to bloom in our collection early in May. A slender shrub to 6 ft. It is entirely hardy here and has come unscathed through winters in which even <i>Cytisus supinus</i> showed some frost damage.....	10 seeds,	.15;	100 seeds,	.45		
supinus (<i>capitatus</i>) Bigflower Broom, smothered with blooms in July. This Broom, with its neat compact habit to 3 ft. high of globular shape, deserves the attention of landscape planters and soil conservationists. Plants grow and succeed in the poorest of soil and prove hardy with us. Transplanting in Spring offers no trouble if tops are cut back severely. 6500 seeds to the ounce.						
				.25	.75	1.75 6.50
DAPHNE cneorum , Garland Flower. This plant does not seed satisfactorily in low altitudes. Seed offered is collected under great difficulties 5000 ft. above sea level. .50 seeds, .45; 100 seeds, .75; 1000 seeds, \$6.00						
EUONYMUS bungeanus , the only Oriental <i>Euonymus</i> found frequently planted in this vicinity ultimately forming a small tree of graceful habit with pendulous branches and fairly persistent ornamental fruit, perfectly hardy North.....						
				.35	.75	2.50
planipes , in its erect habit with rather stout branches quite different from other Asiatic <i>Euonymus</i> . In our opinion, it is the most ornamental of all <i>Euonymus</i> due to its moderate size, large foliage and brilliant display of fruit, hardy in New England.....						
	.25			.75		

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
FOTHERGILLA major35		.75			
monticola . Two very fine and hardy native ornamentals of the Witch Hazel family, with attractive flowers in spring and brilliantly colored foliage in the fall. Monticola is the lesser and as a garden plant, in our opinion, the more valuable of the two.....	.35		.75			
FRANKLINIA (Gordonia) Alatomaha , the well known Franklinia, America's choicest flowering shrub blooming in late Summer and Fall. 10 seeds, .65; 100 seeds, 5.50						
LAUROCERASUS officinalis zabeliana , the hardiest species in cultivation, winters around here if given wind protection. A fine low broadleaved evergreen with handsome lustrous foliage.....	.25		.45	1.25		
LONICERA alpigena , a low upright shrub, attractive by its heart-shaped red fruit in July. This species can be recommended for trials.....			.20	.50	1.50	
MALUS baccata , Siberian Crab, clean seed.....				.60	1.75	5.25
baccata , dry pomes.....				.35	.75	2.50
baccata mandshurica , Mandshurian Crab. Two extremely hardy and disease-resistant ornamental Apples doing well in all soils. Fast growing bushy trees with large pink or white flowers respectively and clusters of red or yellow berry-like fruit. Domestic dry pomes.				.35	.75	2.50
robusta , a <i>baccata</i> Hybrid, faster growing and attaining flowering size sooner than <i>baccata</i> , a fine ornamental Crab, truly named for its robust habit, broad pyramidal in shape, a mass of large apple-blossom flowers in May. May be expected to be hardy far to the North. Ten year plants, from seed, measure 20 feet high.....				.40	.95	3.00
theifera . Tea Crab from China, hardy here. Small tree resembling a Cherry tree when in bloom with its branches thickly set with flower-clusters. Flowers white or pinkish. Most remarkable ornamental Crab much recommended for its heavy bloom and easily raised from seed.						
Domestic dry pomes.....			.20	.35	.75	2.50
RIBES fasciculatum , Japanese Alpine Currant, shrub similar to <i>Ribes alpinum</i> , with persistent foliage and scarlet fruit remaining on the plants over winter, a fine ornamental.....	.15		.30	.90		
ROSA ecae (primula) shrub to 6 ft., hardy in New England, with attractive fragrant foliage, and an abundance of small yellow flowers (1½ in. across) in May 10 seeds, .20; 100 seeds, \$1.50						
SAMBUCUS coerulea , most impressive of native Elderberries, with large flower heads and conspicuous bluish white fruit.....			.15	.30	.85	3.00
SMILAX rotundifolia , no better cover for bird sanctuaries can be found than a thicket of Green Briars with its inter-twining mass of prickly branches.....				.20	.40	1.25
SORBUS scandica , Swedish Mountain Ash, remarkable ornamental from Scandinavia, large shrub or small tree with attractive foliage and red berries. Clean seed.	.20		.50	1.50		
SYMPLOCOS paniculata (<i>crataegoides</i>), Asiatic Sweetleaf, hardy in New England, ornamental shrub valued for its fragrant white flowers in spring and bright blue berries in fall.						
Imported clean seed.....				.30	.75	2.50

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
SYRINGA henryi lutece , a hybrid between josikaea and villosa, faster growing and having larger flower-panicles than either parent, easily grown from seed. For its outstanding ornamental qualities this hybrid strain can be highly recommended.....	.20		.35	1.00	3.00	
josikaea rosea . The rose flowered form of the Hungarian Lilac, in our opinion, is the best of the josikaea varieties and perhaps the most garden-worthy of all the Lilac species. It is a vigorous grower starting to bloom at an early age with large compact flower panicles thrust out on long branches in prominent display quite in contrast to the reserved flowering habit of josikaea. Plants come true from seed.....	.25		.35	1.00	3.00	
ULMUS hollandica (campestris latifolia) a splendid strain of Elms, combining the features of Scotch and English Elms, seed may be sown late in fall for spring germination.....				.25	.60	1.85
VIBURNUM betulifolium , Birchleaf Viburnum, a fine new Viburnum from China, to 10 feet, with birchlike foliage and large clusters of bright red berries... .75, 1/8 oz.	.35					
VITIS vulpina (odoratissima or riparia), native Riverbank Grape, much planted in Europe on arbors for the bright green foliage and fragrancy of its flowers.....				.35	.75	2.50

B.—General Listing of Trees and Shrubs

PACKETS—Packets of all items listed can be supplied at 15c. each, unless priced otherwise.

	pkt.	1/16 oz.	1/4 oz.	oz.	1/4 lb.	lb.
